

## Bachelor of Arts, 3-Year Concentration in

---

### Program Planning Guide 2021/2022

#### Program Overview

The three-year Bachelor of Arts with a concentration in Psychology has been designed for individuals who seek a broad and extensive interdisciplinary education in the liberal arts and sciences tradition. The concentration in Psychology grounds students in research methods and different understandings of human behaviour. Through the study of various psychology issues, world events and schools of psychological thought, students are introduced to methods of reading, interpreting, and synthesizing a broad and diverse range of ideas and research.

Students in the program will have the opportunity to meet the following objectives through the Psychology concentration requirements:

1. gain a thorough grounding in psychological principles and theories;
2. understand the development and history of various schools of psychological thought;
3. learn to critically read and evaluate past and current research;
4. develop an awareness of psychological issues affecting the individual over the course of a lifetime;
5. develop in-depth awareness of selected topics in psychology.

The program reflects the commitment of St. Mary's University to a liberal education as valuable for its own sake since it provides individuals the opportunity to discover and eventually realize their human potential. In addition to providing personal fulfillment, the program prepares students to think critically and communicate clearly. Such skills are in keen demand for a variety of careers including the fields in mental health, research, politics, education, social work, pastoral care, government service, forensics, advertising and public relations.

#### Admission

New students may apply directly to the program when they apply for admission. Current students may be admitted to the program by submitting a *Change of Program Form* to the Enrolment Services Office for processing.

#### Program Requirements

Students are strongly recommended to meet with an academic advisor on a regular basis throughout the program. It is the student's responsibility to ensure they have met the requirements for graduation.

This planning guide is designed to help students keep track of their progress in meeting degree requirements. Course descriptions may be found in either the St. Mary's University College online calendar or hard copy calendar.
